

# D-FORCE® INSECTICIDE

The power of deltamethrin meets the versatility of a residual aerosol.

Because your customers continue to expect more *from* you, you need insecticides that do more *for* you – and FMC Professional Solutions is here to help. As part of our ongoing commitment to Customer Driven Innovation, FMC strives to continually improve our comprehensive line of solutions to keep you better equipped for the challenges you face each day.

This includes products like D-Force® insecticide, the first and only solution to feature the strength of deltamethrin in the convenience of a residual aerosol. Using a low volume application rate, D-Force offers excellent residual protection against a broad spectrum of pests.

## Control That Lasts

D-Force is proven to provide up to 8 weeks of residual control so your customers can enjoy total protection and extended relief from even the toughest insect invaders.

D-Force® Insecticide  
MORTALITY RATE

*German Cockroaches were exposed to ceramic tile 8 weeks after the tile had been treated with D-Force insecticide. The mortality of the population was then examined one, three and twenty-four hours later, as illustrated.*

## No Pest is Safe

When the strength of deltamethrin meets the versatility of an aerosol, it means trouble for a long list of bugs. Studies prove D-Force delivers lasting control of over 50 labeled pests, including ants, spiders and even pyrethroid-resistant strains of cockroaches! And because it's approved for outdoor applications, D-Force easily eliminates fleas, ticks, carpenter bees, carpenter ants, termites and more. D-Force can even be applied to mattresses for precision bed bug control, or used for spot, crack and crevice and injection treatments of "super-colony" ant species.

KILLS:			
Ants	Cockroaches	Gnats	Silverfish
Bed Bugs	Crickets	Mole Crickets	Sowbugs
Bees	Drywood Termites	Mosquitoes	Spiders
Carpet Beetles	Earwigs	Moths	Termites
Centipedes	Fleas	Pillbugs	Ticks

## A Little Goes a Long Way

With a 0.06% concentration of active ingredient, D-Force allows for use in more accounts than you ever thought possible. D-Force possesses exceptional environmental characteristics including a low mammalian toxicity and an extraordinarily broad insect control label. From food handling areas such as restaurants, meat packing plants, food processing centers and supermarkets, to sensitive spaces like hospitals, hotels, transportation equipment and utilities, D-Force is a proven aerosol that delivers control where you need it.

## The Strength to Do It All

With the power of deltamethrin in the broad label flexibility of a residual aerosol, D-Force insecticide helps you attack almost any residential or commercial pest problem with confidence. The lasting control of D-Force ensures your customers will enjoy up to two months of protection from crawling insects – even with an exceptionally low application rate. Add it all up, and you'll see that D-Force simply does more.
