

EASY INSTRUCTIONS:

Remove top from Fruit Fly Trap. Add lure packet to 1/4 cup warm water & 2 drops dish soap. Mix gently, tilt jar & pour into trap. Replace top; clean spills with soapy water and wash hands.

Suggestions:

Place trap 2 feet from fruit flies. Remove sources of flies, such as old fruit, vegetables, wine or beer-making materials. Sanitation will reduce fruit flies.

Mixed lure is effective for 10 - 14 days or until the trap is full of flies. When full, empty & wash trap with soap and water. Use a new lure each time trap is cleaned.

DO NOT PLACE TRAP IN DISHWASHER

Keep lure out of reach of children.
