

EASY INSTRUCTIONS

Peel release paper from sticky trap (in case of contact, remove glue with vegetable oil). Tuck tab to assemble trap. Cut the lure package open. Do not touch the lures, as the moths will be attracted to you. Place one lure on each sticky trap as shown in the picture below. Use 2 traps at a time; they cover up to 2500 sq. feet. Using more traps tend to confuse the moths, making the traps less effective. Replace every 3 months or sooner if full of moths. It is recommended to keep 2 traps set up until no moths are caught in the traps for at least 6 months before discontinuing use of the traps.

**Safe for use in food-handling and food storage areas.
Place out of reach of children and pets.**
