

Rat Zappers

Power Tools For Rodent Control

Quickly and Humanely Kills Both Mice and Rats

No pastes, no poisons, no bloody traps. Lure the rodent into the Rat Zapper with the dry bait of your choice. Rat Zappers sense the rodent's presence and delivers enough electrical energy to quickly and humanely dispatch the rodent.

A flashing red light on top of the trap (or the optional Rat Tale) tells you when the trap has done its job. Remove the rodent by gently shaking it out of the trap. Rat Zappers are available in 2 models, the **I.R. ULTRA** and the **CLASSIC**.

I.R. Ultra Rat Zapper

- New Infrared system quickly detects the rodent and dispatches it with a powerful jolt of electricity.
- Requires 4-D cell alkaline batteries (not included). A set of batteries can provide 60+ kills or last up to 2 years in stand by mode.
- Easy to bait, set, monitor and empty. No blood, no gore, no mess, and no poisons!
- Use the I.R. Ultra Rat Zappers for heavier infestations or long term applications.
- Larger capacity than the Rat Zapper Classic. If it fits in the chamber, I.R. Ultra will dispatch it!
- Flashing lights tell you when you have a catch. To empty, shake dead rodent in to trash can.

Always refer to the instructions provided with your Rat Zapper for proper placement, operations and baiting instructions.

I.R. Ultra Rat Zapper Accessories

Rat Nest - protects your Rat Zapper for temporary outdoor use. Rat Zappers won't work when wet.

Rat Tale - Remote trap indicator for easy monitoring of hidden Rat Zappers. Has 12ft long cord.

Rat Zapper Classic

- New solid state electronics quickly detect the rodent and dispatch it with a powerful jolt of electricity.
- Requires 4 - AA cell alkaline batteries (not included). A set of batteries can provide 30+ kills or last up to 1 year in stand by mode.
- Easy to bait, set, monitor and empty. No blood, no gore, no mess, and no poisons!
- Use the Rat Zapper Classic to control low to moderate rodent infestations.
- Economical Rat Zapper that still offers the versatility and accessories of the Ultra model.
- Flashing lights tell you when you have a catch. To empty, shake dead rodent in to trash can.

Always refer to the instructions provided with your Rat Zapper for proper placement, operations and baiting instructions.
