

Protect your greatest investment.

A homeowner who discovers termite damage will spend an average of \$3,000+ on home repairs – something rarely, if ever, covered by homeowners insurance.

\$5 BILLION
in termite damage per year in U.S.

TERMITE SIGNS TO WATCH FOR

- Swarming
- Damage to windows and door frames
- Shelter tubes around your foundation
- Hollow-sounding baseboards and flooring

STRATEGIC DESIGN

Fast discovery. Fast consumption. Fast colony elimination. Our bait stations are designed to be the best – and paired with a bait they can't resist, termites just can't keep up.

A RING OF PROTECTION

Strategically installed around your home, our bait stations create a ring of protection that leads to colony elimination.

Ask your pest management professional for the right BASF termite solutions.
